

International Code of Nomenclature for algae, fungi, and plants  
(Madrid Code)

*Regnum Vegetabile*  
Volume 162

**REGNUM VEGETABILE** is the book series of the International Association for Plant Taxonomy and is devoted to systematic and evolutionary biology with emphasis on plants, algae, and fungi. Preference is given to works of a broad scope that are of general importance for taxonomists.

All manuscripts intended for publication in **REGNUM VEGETABILE** are submitted to the Editor-in-chief. Authors interested in publishing in the series are requested to send an outline of their book, including a brief description of the content, to the Editor-in-chief. Proposals for new book projects will be scrutinized by the editorial advisory board.

**Editor-in-chief:** Laurence J. Dorr, National Museum of Natural History, Smithsonian Institution, Washington, D.C., U.S.A., E-mail: [DORRL@si.edu](mailto:DORRL@si.edu)

**Production Editor:** Franz Stadler, Institute of Botany, Slovak Academy of Sciences, Bratislava, Slovak Republic and Vienna, Austria, E-mail: [production@iapt-taxon.org](mailto:production@iapt-taxon.org)

**Editorial advisory board:** Domingos Cardoso (Universidade Federal da Bahia, Brazil), Xue-Jun Ge (South China Botanical Garden, Guangzhou, China), Vinita Gowda (Indian Institute of Science Education and Research Bhopal, India), Muthama Muasya (University of Cape Town, South Africa), Helga Ochoterena (Universidad Nacional Autónoma de México, México), and Nicholas Turland (Botanischer Garten und Botanisches Museum Berlin, Freie Universität Berlin, Germany).

**International Code of  
Nomenclature  
for  
algae, fungi, and plants  
(Madrid Code)**

Accepted by the Twentieth International  
Botanical Congress, Madrid, Spain, July 2024
